## **DETAILED ACTION**

### ***Priority***

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Wada (US 5,975,033). Wada discloses a water jacket for a cylinder head 8, comprising: a coolant flow channel formed between a coolant inlet and a coolant outlet for allowing the coolant to flow in said cylinder head 8; coolant flow regulation parts 94 provided in said coolant flow channel for accomplishing smooth flow of the coolant between exhaust ports 42 corresponding to respective combustion chambers 37; and a coolant flow distribution part 85 provided in said coolant flow channel for uniformly distributing flow of the coolant between said exhaust ports 42 corresponding to the respective combustion chambers 37.

### ***Allowable Subject Matter***

Claims 2-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The reference by Oh (US 6,827,049) discloses water jacket for cylinder head.
